

Creating Read-Aloud Books with linked Related Activities

Example Using Book Creator and Jamboard

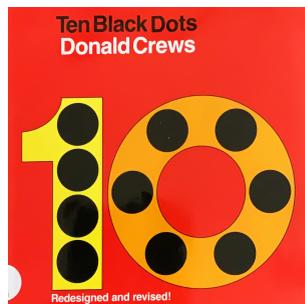

Gail Lovely -- Suddenly It Clicks!

1. Use Book Creator (bookcreator.com) to create an original book, or *re-create an “existing” book.
 1. Be sure to add the audio to each page of the book.
(Remember, you can do the audio in any language)

EXAMPLE:

2. Add a link to your activity inside the Book Creator Book (be sure to include audio instructions and text too, see example above)

<https://bit.ly/10blackdotsJam>

*If using an existing book be sure it is NOT published publicly without permission or is kept behind password protection.
