The Typewriter by Bill Thomson
During the session we linked to a Flipgrid. I have not included it here.

For older students...

The author shares his process here:

Robots & Coding?

Do they belong belong with Literacy?

Coding is Literacy

Coding uses the same structure and backbone as language learning

Communication

Literacy IS communication

Coding IS communication

"Words", "word order" format and "punctuation" all matter

Coding

It has syntax, word choice, parts of speech, precise language, consideration of the receiver... and more!

Coding IS Literacy

Let's Look at ScratchJr

Apple
Google Play
Chrome Apps

Coding as Literacy

EVEN "language-free" robots can Provide:

Context
Venue/Format
Practice

Coding as Literacy
A closer look at

Bee-Bot and Blue-Bot

Coding as Literacy

A look at

Ozobots

Concrete to Abstract

Like Language…

More Abstract

More Concrete
Robots & Coding, do they belong belong with Literacy?

- Coding as literacy

- Robots as literal translation of language

- Coding and robots as storytellers and re-tellers

Wombat Goes Walkabout

Before you go...

A few Tech-focused books and a warning...

Watch out for children's books which use robots as "friends" or with "minds of their own"...robots are not our friends, they do not have emotions and they can only do what they are programmed to do.
